VOL. 17, NO. 20

\$100,000 Hotel Under Way In Business Center

Building operations have been started on the new \$100,000 hotel building by contractor A. T. Hesse of Los Angeles for the owner of the lot, M. N. Putnam of Santa Ana. The building permit was taken out on Wednesday.

The general permit was for \$75,000, which does not include plumbing nor electrical work. Contractor Hesse says the completed building will undoubtedly represent an investment of \$100,000 without the lot, which was valued at about \$20,000 in the recent transfer.

Building plans show two large store rooms on the Central avenue frontage of the ground floor, with the hotel corridor space running from front to rear between. Four smaller rooms suitable for specialty shops, billiard or reading rooms, open into this corridor, two on each side. At the rear of the corridor on one side are the dining room and kitchen, and on the other side are living quarters for the manager. The office is at the extreme end of the corridor. The entire second floor is devoted to hotel rooms.

That the hotel will supply a long felt need in Sierra Madre goes without saying. It will be a relief to be able to direct inquirers to a modern establishment when they ask where they can find hotel accommodations. Many a prospective home owner has been lost to Sierra Madre because he could not find a place to stay long enough to make up his mind just what part of town he wanted to live in.

SELLING ENTIRE FURNITURE STOCK

Having decided to retire from the furniture business in Sierra Madre, Messrs. Earl Topping and Jack Rower of the Sierra Madre Furniture Co., arranged to dispose of their entire stock at one big closing out sale. They closed the store Monday to rearrange their entire stock, repriced everything at real mark-down figures, and threw the store open to the public on Thursday.

The volume of business done yesterday indicated they would close out the whole stock well within the week or ten days contemplated in their original plan. The stock consists almost entirely of new furniture of excellent quality, with a small amount of used items mixed in. In addition to furniture the stock includes linoleums, rugs, shades, dishes, paints, oils, and a great variety of other goods of staple quality which can now be purchased at bargain prices.

MRS. E. K. STINCHCOMB

Mrs. E. K. Stinchcomb, a resident of Sierra Madre about two years, passed away Friday night, Feb. 2, after an illness extending over a period of several years. The splendid qualities of her character were well shown in the patience and sweet spirit with which she maintained her losing fight for health and her aversion to imposing a burden on those who cared for her.

Funeral services were conducted on Feb. 5 at the A. T. Gay chapel by Dr. Robert Freeman of Pasadena, and interment took place at Forest Lawn, Glendale.

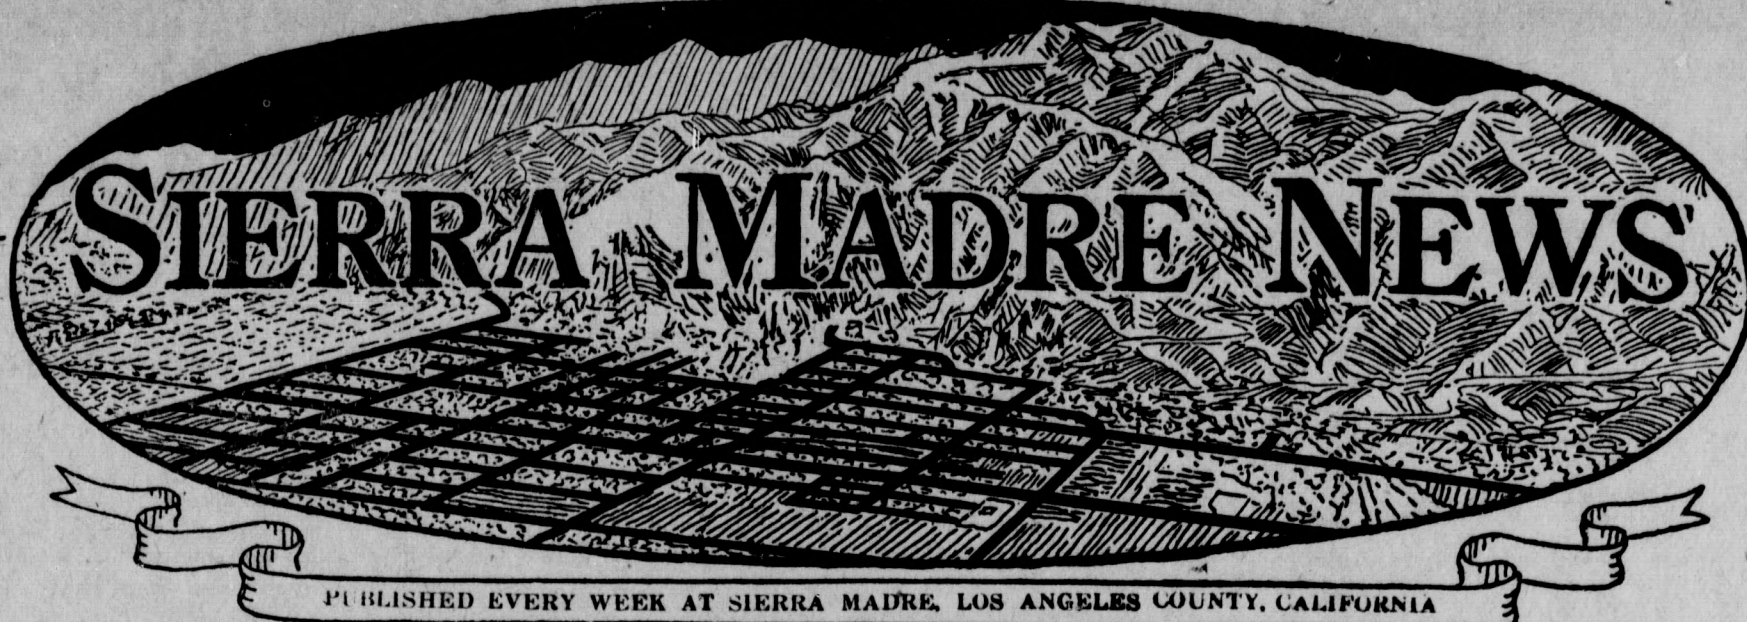

In addition to her devoted husband, Mrs. Stinchcomb is mourned by her mother, Mrs. Watson of Lancaster, and three sisters, Miss Lela Joslyn and Mrs. Lawton of Los Angeles, and Mrs. Rose of San Francisco.

ENJOYABLE CARD PARTY

The card party and entertainment given by the ladies of St. Rita's Monday night was a social and financial success. The program included music by an orchestra composed of Messrs. Cox and the Siefert brothers, patriotic songs, a sketch of the life of Lincoln, with its patriotic lessons. Refreshments were served and dancing and cards were enjoyed. Prizes at "500" were awarded to Mrs. Soluri and Mrs. Langer, Mr. Welscher and Mr. Langer, Mrs. Schuetze and Mr. F. Bergien.

PUBLISHED EVERY WEEK AT SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA

COMMUNITY CLUB HOLDS ELECTION

Ladies' night, election of officers, and an address by Dr. Ira O. Baker made up an interesting evening's program at the February meeting of the Men's Community club in the Congregational church last night. The newly elected officers are Dennis H. Stovall, president; W. S. Hull, vice-president; DeWitt T. Jones, secretary-treasurer. The usual program was varied by the presence of the ladies at the dinner tables.

George S. Anderson, the retiring president, introduced as the speaker of the evening his old friend, Dr. Ira O. Baker, for many years dean of the department of engineering of the University of Illinois. In an address full of humor and interest, Dr. Baker gave some surprising information as to the extent of religious training, Bible study and similar activities among the students of that institution. He showed how the churches have provided for a phase of student activities which many people seem to think are wholly lacking at the state institutions of the country.

REAL ESTATE MART ACTIVE

George H. Letteau has sold his place at 609 West Central to J. O. Smith of the Birch-Smith Furniture Co., Los Angeles. Mr. and Mrs. Letteau will remove to Los Angeles and the Smiths will come to Sierra Madre to occupy the Letteau residence.

J. W. Opie has exchanged his bungalow at 461 West Live Oak to George Blakeslee of Los Angeles, taking in exchange Los Angeles residence property. Mr. and Mrs. Opie have used their Sierra Madre bungalow only for week ends and short stays, and will now make their home in Los Angeles. Mr. and Mrs. Blakeslee will come to Sierra Madre to make their home. They already own the lemon orchard at the corner of Live Oak and Lima, and had contemplated building there. The Opie property is so near the orchard as to make building unnecessary. Mr. Blakeslee is a dealer in jewelry and diamonds.

These sales in addition to the recent sale of the J. G. Carson property at 333 E. Alegria, to Henry Isaacs of Los Angeles, at the recent auction, when it was bid in at \$70,000, constitute a trio of sales of property above the average quality.

SUNDAY EVENING SERVICES CHURCH OF THE ASCENSION

During the season of Lent beginning next Sunday, there will be held in the Parish house a social hour known as the "Rector's Fireside Service." It will consist of a meeting of those who desire to attend, consisting of a social evening meal at 5:30, after which there will be a Hymn singing, informal discussion of parish affairs, etc. After this service an adjournment will be made to the church, when Evensong will be sung. The rector, during these evening services in Lent, will preach on "The Practice and Teachings of the Church." Everybody who desires to come will be welcome.

YOUNG PEOPLE CONDUCT SERVICES

The Christian Endeavor societies of the Congregational church will conduct the evening service next Sunday evening, the only service being held at 7 o'clock. It will be a prayer and praise service with several special musical numbers. At the morning service Rev. R. D. Hall, who filled the pulpit acceptably two weeks ago, will again preach.

Mrs. Harry Hawxhurst entertained the Modern Priscillas on Thursday afternoon at the home of her mother, Mrs. George Humphries, on East Grand View avenue. Each guest was asked to present her pet idea on the saving of time, effort or money, and some very clever ones were submitted. Prizes were awarded for the three best ideas to Mrs. Victor Hill, Miss Edith Blumer and Mrs. M. D. Welcher. Delicious refreshments were served by Mrs. Humphries and Mrs. Hawxhurst.

Tribute to Lincoln by District President on Reciprocity Day

(By Mrs. J. C. Urquhart)

Sierra Madre, Feb. 12, 1923.

A few weeks ago the world celebrated the birth of the greatest gift of God to man; the birth of the Idea of Love which was destined to save the world.

Today we pay homage to the reappearing of this great Idea through the life of a man whose great love of mankind and recognition of the universal fatherhood of God, entitles him to walk side by side with the great Way-shower, Jesus Christ.

As through Jesus Christ we came to know God as our Father, so through Abraham Lincoln we came to know mankind as our brother, and no greater tribute can we pay to the memory of the man than to go on trying to make this dream of universal brotherhood come true. "If ye love me, keep my commandments." What would a man like Lincoln care if his name be honored and his ideal forgotten.

As we contemplate the development of American ideals through her great men, we pause with reverence at the name of Abraham Lincoln, realizing the wondrous humility of this man. Through his courage and faith in absolute right, the thought of the day was crystallized and a social conscience was born which afterward meant the embodiment of America's highest concept of liberty.

This social consciousness grew and expanded until the shackles were struck from the negro slave.

This man of courage and vision died that the unity of his country might

live. As he loved and lived so that justice might be meted out to all alike, so should we love and live to that same end. His great sacrifice proved that God never made a tyrant nor a slave, and while the colored man was released from bondage, the shackles of social bondage are still felt in our beloved land and to honor the great exemplar of liberty we must press on in our fight for social justice until the full love of brotherhood is manifested.

America is not the name of so much territory. It is the living spirit born in the rough school of bitter experiences; a living spirit which has purpose and pride and conscience; knows why it wished to live, and to what end, knows how it comes to be respected of the world, and hopes to retain that respect by living on with Lincoln's love of man as its old and new Testament. It is more precious than this America should live than Americans should live.

The name of Abraham Lincoln stands as the guiding light of American life, but his vision was broad and his contact with God so close that world today recognizes its hope for life in his immortal words, "With malice toward none, with charity for all, with firmness in the right, let us strive on to finish the work we are in; to bind up the nation's wounds, to care for him who shall have borne the battle and for the widow and his orphan; to do all which may achieve and cherish a just and lasting peace among ourselves and the nations of the World."

MRS. WEBB HURT BY LOS ANGELES AUTO

Friends of Mrs. H. E. C. Webb were distressed to learn of her serious injury by being struck by an automobile in Los Angeles on Monday of last week. She was crossing the street near her bungalow court near Main and Moneta avenue, when she was run over. She was taken to a hospital and later to her apartment and has been in the constant care of a nurse ever since, having suffered numerous cuts and bruises. She had so far recovered as to permit bringing her to her Sierra Madre home at 171 South Baldwin yesterday.

MASTER MASON DEGREE TO BE CONFERRED TUESDAY

The sublime degree of Master Mason will be conferred next Tuesday night at Sierra Madre Lodge No. 408, F. & A. M. Last Tuesday night the time of the officers and members was devoted to a school of instruction with District Inspector L. L. Test in charge, followed by the serving of light refreshments and a social hour.

Mrs. Jessica Wright has been absent from the postmaster's office all week, being confined to her home by illness. Kenneth Cochran is "subbing" to keep the office from being swamped.

SHALL WE PRESERVE OUR PUBLIC HIGHWAYS?

The trucking interests of California are maintaining in Sacramento a very strong lobby to protect their interests at the expense of the tax payers of California. They are asking for a 26,000 pound load limit on the highways of this State whereas it has been proven that the highways cannot stand a load to exceed 22,000 pounds.

Only 1-35th of 1 per cent of the total number of vehicles registered with the State Motor Vehicle department are capable of carrying a load to exceed 22,000 pounds. Shall the interests of our entire state be jeopardized to accommodate this limited number of truck owners who are using the public highways as a right of way on which to do business? It is up to the tax payer in California to get in touch with their Legislators and see that legislation is provided which does not allow a load on our highways to exceed 22,000 pounds. We must protect our interests and see that our highways are preserved.

ANNUAL MEETING OF BETHANY CHURCH

The annual meeting of Bethany church was held last week, Friday evening. The reports were evidence of growth and of God's gracious favor.

Splendid work has been done by the Young People's society and other departments. The Sunday school has increased in attendance about 75 per cent and the largest number have been added to the church membership of any year.

The financial prosperity has been marked by the receipt in free-will offerings of over four thousand dollars.

To the church property has been added the adjoining building which has been converted into a department for the primary Sunday school.

Dr. Rawlings began a series of sermons last Sunday evening on "The Great Fundamentals," which will continue through several Sunday evenings. This affords an opportunity of hearing these important subjects most ably and clearly presented.

CHARLES SEBREE MOVES SOUTH

Charles H. Sebree has returned to Southern California after spending several years in Caldwell, Idaho. He called on Sierra Madre friends this week in company with his venerable father, Howard Sebree of Pasadena, and was much pleased with the indications of advancement in Sierra Madre since his last visit. Coming down from Idaho, Mr. Sebree drove to Portland and then down the coast.

President H. E. Allen of the Sierra Madre Savings bank has been confined to his home a week by the prevailing malady, "flu," or whatever you want to call it. Almost every place of business in town has been handicapped by the absence of one or more hands for at least a day. The weather of the past few days ought to do a great deal toward clearing up the situation.

With a bargain purchase of ready made picture frames, the Sierra Madre Paint and Paper Store is making a fine offering to start its picture frame business. There is a large assortment of frames from sizes about 4x5 up to 8x10 inches at prices far below what the frames could be specially made for. Mr. Wheeling has also arranged to put in a large stock of strip mouldings from which frames will be made to order in any size.

G. I. Farman, proprietor of the Sierra Madre Electric company, is "pointing with pride" to a splendid new Safe Cabinet just installed to care for his records and books. He says the purchase was not inspired by the burglars' radio raid last summer but purely as a means of fire protection. Burglars contemplating an attack are assured there is nothing in the safe to interest them and they will be supplied in advance and promise not to wreck the safe.

Mr. and Mrs. C. F. Gray are enjoying a visit from Mr. Gray's sister, Mrs. Kirkpatrick of Greeley, Colo.

Club Hospitality Is Enjoyed By Many Visitors

Two hundred club women and a number of specially invited guests enjoyed the Reciprocity Day program given by the Sierra Madre Woman's club on Monday. Delegates were present from clubs all over this federation district.

The dispatch with which the program was carried out, the luncheon arrangements and the smoothly working machinery of the whole affair reflected great credit upon the president, Mrs. Steinberger, and her entire corps of assistants. Throughout the day, the events on the program were within five minutes of the scheduled time, in itself a remarkable showing.

The following resume of the events of the day is furnished by the club's press chairman, Mrs. Palmer Rhodes.

Unquestionably a serious undercurrent affected both speakers and audience at the all-day reciprocity day meeting held on Lincoln's Birthday, due to anxiety as to the fate of most of the institutions developed by the long years of struggle and effort on the part of the Women's Clubs and kindred organizations, now threatened with either drastic curtailment of functions or annihilation by cuts in the state budget.

The State Board of Charities and Corrections, which grew out of "Prison Reform" work, abolished.

The State Board of Housing and Immigration, patterned in part after the Los Angeles Housing Commission and functioning first on conditions in the migration, patterned in part after the riots, abolished.

But, worst of all, the pet child of the State Federation, born at the Paso Robles convention nine years ago, wet nursed, spanked and taught good manners and made popular with the leading employers everywhere by Mrs. Edson, The Industrial Welfare Commission, is cut off without a shilling!

The illness which prevented Mrs. Edson's sounding the call to arms in person to rally the forces of clubdom was regrettable, but since all the speakers, U. S. District Attorney Joseph Burke, Mrs. Robert J. Burdette, Mrs. Carrie C. Bryant, Mrs. J. A. Urquhart, Mr. G. Gordon Whitnall and Mr. G. Bromley Oxnam, named in order of their appearance and each provided with a perfectly good and comprehensive subject, lapsed more or less frequently into reference to the need of more money and more efficiency and more education for the humanitarian and executive work to be done, there was no lack of clarion calls to action in the State crisis.

Mrs. Burdette was perhaps never heard to so great advantage. Her reference to the sacrifice of the finer things of the State to a materialistic effort to save dollars, followed an excellent resume of recent activities of the General Federation, and club ideals were illuminated by the faith born of long service.

Messages

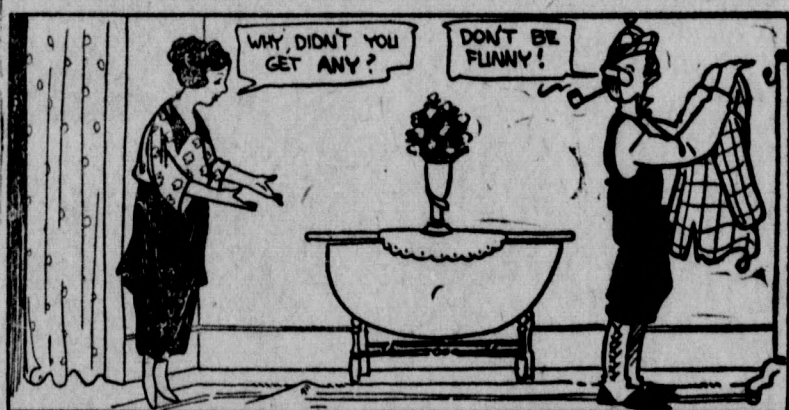

The lovely miniature of Mrs. Os-good at the chess table, painted by Miss Bush, smiled a message of love and tranquility to "all her dear girls," from its enshrinement of pink blossoms and candle light on the stage.

Barnard's Lincoln, austere, uncouth, with its special appeal to Humanity, Justice and Faith, hanging on the wall beside the flag visualized the great message in the immortal words spoken at Gettysburg, read by Mrs. Urquhart at the close of her beautiful tribute to Lincoln.

Hands

Mrs. Burdette's hand, stretched out to the women of the world through the Department of International Relations, the pictured hand of Mrs. Os-good, resting on the arm of her chair at the end of the game of chess; Mr. Whitnall's hand extended to typify Los Angeles' invitation to all parts of the Regional conference district to cooperate in the solving of all problems and in building well for the future through the new County Planning Commission; the same hand transformed into a pitcher in the hands of a woman pouring part like batter on the hot griddle at Chit's, provoking gales of laughter but driving home unforgettable the lesson of the need of planning. The silver lace falling away from Mrs. Glidden's hands about the shining cornet which led in Lincoln's favorite song, "Mine Eyes Have Seen

AN ADVANCE REVIEW

Thomas H. Ince has picked a winner and produced a thriller in his film version of "The Hottentot." Adapted from the stage play of the same name in which Willie Collier scored his greatest success, the picture is a novel combination of hilarious comedy and tense drama.

The witty lines of the play which won such endless laughter from audiences throughout the country have been retained in sparkling sub-titles. The absurd situations in which a horse fearing yachtsman finds himself when he becomes the accidental hero of a runaway and is mistaken for a famous steeplechase rider of the same name have been developed on the screen with the expertness of the master showman.

Just by way of good measure, Ince has filmed a steeplechase which could not be included in the stage play.

From beginning to end "The Hottentot" is crowded with laughs. Sam's introduction to Peggy Fairfax, with whom he promptly falls in love, is one of the funniest incidents ever screened. The horse-fearing yachtsman has just shaken hands with her when her horse runs away. Sam jumps on the running-board of his automobile to pursue her. When the car hits a rut he is thrown into the air and lands on the back of a riderless horse that has been plunging along in mad fright beside the auto.

By sheerest accident the terrified yachtsman and the equally terrified horse manages to pull the girl from her mount before he himself is thrown violently over an embankment and crowned with a flying horseshoe from the violently pawing horse that has just run away.

After this absurd scene which every one believes has been a brilliant rescue Sam is mistaken for a famous steeplechase rider of his same name. His struggles to extricate himself from a situation as embarrassing as it is dangerous, in view of the fact that he can't ride at all, makes Sam's life miserable from that time on. In the end he either has to admit himself a coward to the girl he loves or ride the wild Hottentot in a break-neck steeplechase.

Madge Bellamy recently starred in Maurice Tourneur's "Lorna Doone," is at her winsome best as the vivacious little sportswoman for whom Sam overcomes fear. Douglas MacLean, as the horse-fearing yachtsman, and Raymond Hatton, as Swift, the eccentric butler, have worked out a clever characterization that are good for a laugh every time they appear on the screen.

"The Hottentot" will be shown at the Colonial theater, Monrovia, on Sunday, Monday and Tuesday, Feb. 18, 19 and 20.

THE GAME OF LIFE

One brave smile will smite the cloud from the darkest day;
Pelt old Trouble with a song, and he will run away;
Hurl a laugh into the storm, and every wind that blows
Will lead you down a rainbow road to the budding rose;
Joy and love and victory flash from common things
As we harvest them with hope, hearing the deathless wings
Beat about the dreary dust, luring to the skies
Where the stars are shining for our faithful, questioning eyes.
—Anon.

At 13, Corinne Has Already Won These Trophies

At the age of 13, Corinne Voth has few equals as an equestrienne. She began riding at 6 and has appeared at practically every important horse show in the country. The ribbons she has taken number about cups nearly one-half as many. She is pictured seated among her

STATE PICNIC AND REUNION SCHEDULE

The following state picnic reunions have been announced for the near future from the headquarters of the various states:

Iowa—All day Thursday, February 22, at Lincoln Park, Los Angeles. Program announced later. Col. A. B. Shaw, president, R. F. D. No. 3, Pasadena.

Minnesota—Sycamore Grove Park, all day Saturday, Feb. 17. Picnic is held third Saturday in February of each year. Indoor socials in Music Art hall, 223 S. Broadway, Los Angeles, first Monday evening of each month.

Miss Marion L. Vannier, assistant professor of nursing at the University of Minnesota, found this on her desk the other morning: "Los Angeles has passed the \$100,000,000 building mark for this year. Los Angeles is the little Minneapolis of southern California, and if it had the climate we have, it might yet become a big city."

MORE AUTO SUGGESTION

"You sold me a car about two weeks ago."

"How do you like it?"
"I want you to tell me everything you said about that car all over again. I'm getting discouraged."—Birmingham Age-Herald.

Mrs. Frank Hart entertained a party of eight at "La Tosca," the opening night of the opera season in Los Angeles.

BY THE WAY

The Ever Welcome Park—

The following from the Times is a good example of the way Sierra Madre's park project may be expected to impress outsiders, and it is also one of the factors that will tend to make outsiders become insiders:

Little Sierra Madre, gem city of the mountain trail, has done itself proud by voting bonds to establish a picturesque public park. It will only be a small park, as Sierra Madre is only a small city. But we venture to say it will be beautiful as the environment of mountain and hillside and valley is beautiful. At any rate, the good folk of Sierra Madre are doing their bit for the pride of California. Now what about that Arroyo Seco scenic drive that Los Angeles was going to secure as a heritage for the people? Go to Sierra Madre, thou sluggard; consider her ways and be wise.

Sierra Madre's women again win the plaudits of Southern California for their community by the manner of their entertainment of the federation district club delegates. The smoothly running program, the delicious luncheon, the splendid caliber of the speakers secured by the local committee, and the personality of the home club members all combined to advance Sierra Madre another step in the estimation of a large circle of people.

If Governor Richardson does not watch his step he will find himself catalogued among the great men by reason of the simplicity and directness of his methods. Two instances: He is not going to weary the public with any proclamations setting aside raisin days, prune days, be-kind-to-your-wife days and the like, which long ago lost the force of advertising value. And he is not going to set himself above the courts of the state by interfering with the administration of justice, setting aside duly rendered verdicts and sentences, and voiding his oath of office by saying which laws shall and which shall not be enforced.

That Budget—

Governor Richardson's budget probably did exactly what he intended it should do—it put every state department on the defensive to the extent that they will have to show the merit of their claim for public funds. He never intended that the first draft of the budget should be final. But those things which have been eliminated will have to show that they have been worth while before being restored. And when special pleaders go before him they will find something new in the governor's chair—a man to whom the argument of votes will not appeal. Their appeal will have to be on a merit basis.

SOUTHERN PACIFIC

WINS ITS FIGHT

In commenting on the decision of the Interstate Commerce Commission whereby the Southern Pacific is allowed to retain the Central Pacific Line, G. W. Wetherby, Traffic Representative said today:

"It is very gratifying to note that our company was sustained in every contention, and it means a great economic victory for the public at large as our system will now remain intact and we will continue to provide the some high class service as in the past. Also we will now be able to go ahead with our expansion program, which was not possible when the title of some of our property was in question. "In our fight to retain the General Pacific property, which we have owned support of practically every chamber of commerce, board of trade, commercial organizations, etc., on the Pacific Coast, and I wish to thank our friends for their loyal support in this matter.

"This decision means a great deal to the shippers and travelers of California, as in the establishment of

for fifty years, we had the unanimous rates, the railroad commission has authorized same to be higher for a two-line haul than for a single line haul; also we will be able to render much more efficient and expeditious service with the lines under one management."

The Ladies Aid Society of the Congregational Church will meet Tuesday, February 20, at 2:30 at the home of Mrs. W. I. Manchester, 328 N. Auburn. The meeting will be in the form of a Valentine party and some little Valentine girls will sing. The hostess will be assisted by Mrs. Etta Wright, Mrs. A. B. Peak, and Mrs. W. S. Hull. All members of the society and friends are invited.

WOMAN'S CLUB NEWS

(Continued from Page One)

the Glory of the Coming of the Lord." Dr. Oxnam's hand first illustrating the mailed fist of war and then the outstretched hand pleading for discussion about the round table, before, instead of after the boys found their agonized way to the cross fields in Europe; and his new little baby's hand no bigger than his thumb, reaching out confidently for the love and protection that should be given to all the little ones.

And overheard during the luncheon hour, the story of the little group of women in the Governor's office, with Mrs. Schloss holding out her hand to make the plea that all the State activities need more money instead of less as the years pass.

And over the teacups, one capable feminine hand stirring in the sugar, and the practical voice of its owner saying, "The State of California was never so rich as now, we hear about millions for this and for that, why must these things be cut? Whose tax bills will be lessened, ours or the railroads?"

The many hands clasped in welcome and farewell and then the woman who paused on the club house porch and looked gravely at the low hanging clouds on the shadowy mountains, and then smiled as her gaze traveled up to the splashes of snow, shining in the after glow, and walked away saying, "I will lift up mine eyes unto the hills from whence comes my help."

One more Reciprocity Day, perhaps helping many to take one more step forward.

Important Mass Meeting

All club women are advised of a mass meeting which will be held at the Morosco Theatre, Los Angeles, Friday, Feb. 23, at 1 o'clock, to protest against the cut in the submitted budget which so seriously affects educational, humanitarian and welfare institutions in the state. Representatives from all women's organizations will be present and a strenuous effort will be made to give publicity to facts. Since this blow appears to be aimed directly at many things the State Federation has stood for it behooves women to rally to the forces now, and every organization is urged to have representation at this meeting.

Important Art Meeting

Through the efforts of Miss Ella Shepard Bush, Chairman of Art, a very splendid meeting has been arranged for Monday, Feb. 19, to which every woman interested whether she be a member of the Woman's Club or not, is invited. Mr. Arthur H. Miller, curator of the print room of the Cannel & Chaffin gallery, will address the assembly and prints and their various processes will be most intelligently discussed. Mr. Miller will bring with him about 20 beautiful illustrations, and has consented to allow these to remain upon the walls of the club house for a month, that many may be privileged to enjoy them. The meeting will convene in the club parlors at 2 p. m. The following members of the Art committee will act as hostesses: Mrs. H. E. Allen, Miss Lea Fletcher, Mrs. Chester H. Brown, Mrs. H. R. Allen, Mrs. George Ferris, Mrs. Mary E. Gwyn, Mrs. C. E. Nourse, Mrs. W. S. Andrews, Mrs. H. T. Fennel, Mrs. Fred Grienow, Mrs. Homer Gledden, Mrs. M. Butsch.

Club Chorus

Because of a conflict of dates, the Woman's Club chorus will meet at 1 o'clock on Monday, Feb. 19, at the club house, instead of at 2 o'clock, as scheduled. Chorus members may then have the privilege of attending the Art meeting, which will convene at 2 o'clock the same afternoon.

The Parent-Teacher association will meet next Tuesday night in the Kindergarten building. The speaker will be Dennis H. Stovall, scoutmaster in charge of the Sierra Madre troop of Boy Scouts, who are making such an enviable record.

APPROVES WATER SERVICE

Sierra Madre, California.
February 13, 1923

To the Editor:

Dear Sir:—

I read with a good deal of interest the article in last week's issue on the present status of the Water Department's undertakings and noticed that expressions were desired in regard to the service given the irrigators. As one of the large irrigators, I wish to say that the service to our orchard was excellent last season. We got all the water we wanted at any time and were well satisfied.

Your very truly,
CHARLES BROOKS.

TRIBUTE TO A

DOG POISONER

Again you have scored, at least your crabbed, pinched nature can revel in the result of your careful scheming. You did not cause the dog very much pain. It suffered some but not too much. The one you have really hurt who as soon as breakfast was done romped and played with her Gyp. Her little heart is hurt because you have given vent to your sick, poisoned mind. I wondered if the satisfaction you are enjoying is permanent or if you will continue to rob kiddies of their playmates.

CITRUS PRUNING

METHODS SHOWN

Demonstrations of the best methods in citrus pruning will be given in the orchard of L. E. Steinberger, 529 Mariposa Ave., Wednesday, February 21, at 10 a. m. The instruction will be given by experts representing the agricultural extension service and the extension specialist in citriculture, under the auspices of the county farm bureau.

NOTICE OF AGREEMENT OF SALE BY FIRST NATIONAL BANK, SIERRA MADRE, OF THE BUSINESS AND ASSETS OF SAID BANK TO THE SIERRA MADRE SAVINGS BANK, PURSUANT TO SECTION 31 OF THE CALIFORNIA BANK ACT.

NOTICE IS HEREBY GIVEN THAT on or about the 1st day of November, 1922, an agreement was made and entered into, pursuant to the provisions of Section 31, of the California Bank Act, by and between the First National Bank, Sierra Madre, a corporation, duly organized and existing under and by virtue of the laws of the United States of America, having its principal place of business in the City of Sierra Madre, County of Los Angeles, State of California, and the Sierra Madre Savings Bank, a corporation duly organized and existing under and by virtue of the laws of the State of California, having its head office and principal place of business at Sierra Madre, in the County of Los Angeles, State of California, wherein and whereby said First National Bank, Sierra Madre, agreed to sell and said Sierra Madre Savings Bank agreed to purchase the business and assets of said bank as of the close of business on November 4th, 1922, for and in consideration, among other things, of the assumption by said Sierra Madre Savings Bank of the payment in full, on demand, of all claims of and liabilities to the depositors of said First National Bank, Sierra Madre, and it was further understood and agreed that any and all transfers of deposits of said First National Bank, Sierra Madre, to said Sierra Madre Savings Bank are and shall be subject to the right of every depositor of said selling bank to withdraw his deposit in full on demand, after such transfer, irrespective of the terms under which said deposit may have been made with said selling bank; and

Notice is hereby further given that said agreement was approved by the Superintendent of Banks on the 4th day of November, 1922; that the sale and transfer aforesaid was thereafter consummated on said date last mentioned, and that pursuant to a permit duly issued by said Superintendent of Banks, said Sierra Madre Savings Bank on November 4, 1922, established and is now operating in premises commonly known and designated as Bank Building in the City of Sierra Madre, County of Los Angeles, State of California, being the premises heretofore occupied by said First National Bank, Sierra Madre.

Dated Sierra Madre, California, January 25, 1923.

KLENZO

Klenzo Dental Creme does what your dentrifice should do. It makes the teeth clean—scrupulously clean; gives them the white lustrous look that is the distinguishing mark of beautiful teeth. And, in doing this, Klenzo protects the teeth against decay.

A special feature of Klenzo Dental Creme is the cool, clean feeling it leaves in the mouth. This feeling means that the countless little taste nerves have been freed from the stale secretions that make the mouth feel hot and sticky.

Use Klenzo every morning and every night—and, if possible, after meals. Give close attention to the crevices around and between the teeth.

After brushing the teeth, always rinse the mouth—preferably with a diluted solution of Klenzo Liquid Antiseptic.

Klenzo Liquid Antiseptic is a scientific preparation for the mouth, teeth, gums, throat, nose, skin and mucous surfaces, and a valuable aid in the treatment of Pyorrhea. It is also very useful in overcoming bad breath.

Use Klenzo Liquid Antiseptic as a mouth-wash, gargle or spray. Full directions on every bottle.

White Teeth, Healthy Gums and a Clean Mouth.

GENUINE PEARLS

MADE TO ORDER

For some years in Japan and elsewhere, pearls have been grown to order in oysters by the insertion into the shell of a bit of nacre to serve as a nucleus around which the mollusc proceeds to deposit layers of pearl-forming material. These caused quite a flurry in the market, since they exactly resemble natural pearls in their external aspect, until it was found that the artificial center could be discovered by appropriate methods.

It is now stated on the authority of the French Academy of Sciences, in their Comptes Rendus, that it is possible to produce pearls which are exactly like natural pearls, not only in their outside look, but also when examined by rays which reveal their inner structure.

Pearls thus produced were submitted for examination to a member of the French Academy, M. Louis Boute, and his report upon the subject to that body is truly startling. It may be summarized in the following three statements:

1. "Culture" pearls, identical at all points with genuine, natural pearls, can be produced by grafting into mollusc the pearl-producing sac without a nucleus.

2. The well known Galibourg and Rysinger apparatus (by which the interior structure of pearls can be made visible) shows no difference between such pearls and naturally grown pearls, since there is no nacre nucleus to be revealed.

3. The assertion often made that culture pearls weighing more than six grains cannot be produced is incorrect since the specimen pearl examined weighed over thirteen grains.

THERE IS A LIMIT

TO FREE SPEECH

A new use for advertising has been found by William Allen White, Emporia editor, who obtained an invitation for a chicken dinner through an advertisement in his Emporia Gazette. After Mrs. White had left Emporia for New York, the editor inserted the following advertisement:

"Public Notice:
"Mrs. W. A. White has gone to New York, called there by the illness of her sister.

"Mr. W. A. White is in Emporia.

"How about Sunday dinner?"

"This is not only an opportunity,

but a duty as we have said before on many cases of public need.

"Don't all speak at once but phone 28 after six o'clock."

By 6:30 o'clock Mr. White had received twenty invitations for dinner and the phone was busy. He ate chicken with Willis Kerr, librarian at the Kansas state normal the first to answer the notice.

(The editor of the News clipped this notice for future use and it got on the copy hook by mistake.)

"Daughter, doesn't that young man know how to say oodnight?"
"Oh, Daddy, I'll say he does!"—Exchange.

NOTICE OF ANNEXATION ELECTION

For the Annexation to the City of Montebello, California, of Certain Territory Designated as Rio Hondo Territory.

Whereas, the Board of Trustees of the City of Montebello has received a written petition asking that certain new territory contiguous to said City of Montebello be annexed to said City, which said territory is situated in the County of Los Angeles, State of California, and is more particularly described in said petition in the words and figures as hereinafter in this notice described, and

Whereas, the said Board of Trustees of the said City of Montebello has found and determined that said petition is signed by not less than one-fourth, to-wit: by one-fourth (1/4) and more in number of the qualified electors residing within the aforesaid new territory as shown by the registration of voters of said Los Angeles County, and

Whereas, said new territory so proposed to be annexed to said City of Montebello does not form a part of any municipal corporation, and it appears that said new territory is inhabited and that the occupants thereof are bona fide residents of said new territory, and

Whereas, said petition contained a request that the said Board of Trustees call a special election in said new territory proposed by said petition to be annexed to said City of Montebello, and submit to the electors residing in said new territory the question whether said new territory shall be annexed to, incorporated in and made a part of said City of Montebello, and

Whereas, on the 3rd day of February, 1923, said Board of Trustees of the City of Montebello passed a resolution designated as Resolution No. 228 entitled "A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF MONTEBELLO CALLING A SPECIAL ELECTION TO BE HELD ON THE 20TH DAY OF MARCH, 1923, IN CERTAIN TERRITORY IN THE COUNTY OF LOS ANGELES AND CONTIGUOUS TO SAID CITY OF MONTEBELLO, PROPOSED TO BE ANNEXED TO SAID CITY OF MONTEBELLO, PROVIDING FOR THE HOLDINGS OF SUCH ELECTION AND SUBMITTING TO THE ELECTORS RESIDING IN SUCH TERRITORY THE QUESTION WHETHER SUCH NEW TERRITORY SHALL BE ANNEXED TO, INCORPORATED IN AND MADE A PART OF

SAID CITY OF MONTEBELLO, DESIGNATING SAID TERRITORY BY THE NAME OF RIO HONDO TERRITORY, ESTABLISHING AN ELECTION PRECINCT AND POLLING PLACE IN SAID TERRITORY, APPOINTING THE OFFICERS OF ELECTION FOR SAID SPECIAL ELECTION AND PROVIDING FOR THE GIVING OF NOTICE OF SUCH SPECIAL ELECTION," which said Resolution was approved by the President of the Board of Trustees of said City on the 3rd day of February, 1923.

NOW, THEREFORE, notice is hereby given that in pursuance of the provisions of said Resolution No. 228 of the Resolutions of the City of Montebello, and in accordance with the provisions of an act of the Legislature of the State of California entitled "An Act to provide for the alteration of the boundaries of and for the annexation of territory to municipal corporations, for the incorporation of such annexed territory in and as a part thereof, and for the districting, government and municipal control of such annexed territory," approved June 11, 1913, and all acts amendatory thereof, and supplementary thereto, and designated and referred to as the "Annexation Act of 1913," a special election will be held in that certain territory hereinafter described, contiguous to said City of Montebello, on the 20th day of March, 1923, for the purpose of submitting to the qualified electors residing in said territory the question whether such new territory, hereinafter described shall be annexed to, incorporated in and made a part of said City of Montebello, and the proposition to be submitted at said election shall be the following:

That it is proposed, to annex to, incorporate in and make a part of said City of Montebello the said territory sought to be annexed.

That the territory proposed to be annexed to said City of Montebello, and in which said special election has been called and will be held as aforesaid, is situated in the County of Los Angeles, State of California, and is more particularly bounded and described as follows:

Beginning at the most southerly corner of the City of Montebello, in the County of Los Angeles, State of California, as it existed December 14, 1922, being also the most southerly corner of Lot 97 El Carmel Tract, as per map recorded in Book 7, Pages 134-135 of Maps, Records of Los Angeles County, thence southeasterly along the southeasterly prolongation of the southeasterly line of said Lot 97 El Carmel Tract, to the point of intersection with a line drawn 100 feet southeasterly from and parallel with the southeasterly boundary line of said City of Montebello; thence northeasterly along said line 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City of Montebello; thence northeasterly along said line 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City of Montebello, to the point of intersection with the southwesterly line of Center Street, as shown on County Surveyor's Map No. 7708, Sheet No. 1, on file in the office of the County Surveyor of Los Angeles County; thence northwesterly along said southwesterly line of Center Street to the point of intersection with a line drawn 30 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from the said southeasterly boundary line of said City; thence northerly along said parallel line 30 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 100 feet southeasterly from said southeasterly boundary line of said City of Montebello, measured at right angles from the various courses of said southeasterly boundary line of said City, to the point of intersection with the northeasterly line of said Center Street; thence southeasterly along said northeasterly line of said Center Street to the point of intersection with a line drawn 100 feet southeasterly from and parallel with said southeasterly boundary line of said City of Montebello, measured at right angles from said southeasterly boundary line of said City; thence northeasterly along said line parallel with and 1

New Ratine

Genuine imported English Ratine 38 inches wide in plain colors of Jade, Tan, Brown, Lavender, Copen, Cordovan, Beege, \$1.15

DOTTED SWISS

28-inch dotted Swiss, a fine dress quality, colors are Brown, Navy, Red, Harding, Maise, Peach, Copen and Jade75c

Grade Crossing Crash Missed By Margin of Inches

THE photographer who snapped this scene and set up his camera at a grade crossing to get a picture of a mile-a-minute express train. Almost at the minute it was due to pass an automobile appeared, rushing for the crossing. The photographer clicked his shutter, expecting to catch the accident. But the chauffeur set his brakes and the train missed the car by inches.

Sunshine & Showers

by

DE WITT T. JONES

The fellow that can get a girl to ride on the back of his motor cycle can feel sure that it is he alone that she cares for.

From the way the Los Angeles police department is treating Little Phil Alguin one would infer that there was a city ordinance against killing a policeman. It must be fine to be in a position that is so well protected. We have never heard of anyone going to Mexico to bring back a man who had shot an editor.

Of the flowers that bloom in the spring, tra la,
The poets have ardently sung,
And as that seems to be quite the thing, tra la,
We might just as well have our fling, tra la,
And that's why this stanza we sprung.
—Whit Greenleaf.

The State is completing a bridge across the San Gabriel river which will be a mile and a half from a road and no preparations are being made to build a road to it. It seems that someone has at last found a way to keep bridges from wearing out.

"The poor flappers seem to think these screen idols are doing their smiles in the closeups just for them," said Eloise Entree, permanent resident of Hollywood. "The truth is, it is generally some of us rising young actresses that is loafing behind the director that's the cause of his soulful looks."

When we visit a zoo we are always impressed with the fact that the main need for monkey cages seems to be for the purpose of keeping the inmates from doing violence to certain individuals of the human race who make remarks about having sprung from monkeys.

When someone tells you that Florida oranges are sweeter than California oranges, he may know what he is talking about or it may be his way of letting you think he is from that part of the East where Florida oranges are to be had.

At last we have found an accurate way of telling a young woman from one of 'er, mature years. The other night we listened to a jazz orchestra that would have made the man who invented jazz music ashamed of himself. Near us were two ladies. Both were dressed in the latest style—at least our idea of the latest style—and from all outward appearances they were about the same age, type and mental caliber, but here is where the

test comes. When the performers started their syncopated musical gymnastics one sat bolt-upright, every nerve tense and every now and then looked wistfully around as trying to locate a slick spot upon which to use the music. We looked at the other one. She yawned, powdered her nose and registered boredom. We learned later that one was the other's grandmother but now that we have come to the point, it has slipped our mind which was which.

A man who said he had been in Los Angeles County jail since December was called for trial this week and reprimanded by the judge for not appearing the other three times his case was called. Upon one occasion a bench warrant was issued for his appearance. He said that he was evidently lost to the jail employees. We stand for two branches of the detective bureau. One to find crooks before they get into jail and the other to find them after they get in.

First came the movies, then the censors; now they are talking of a censor for the censors. Pretty soon things will be as complicated as caste among the English servants.

SWEET TOOTH

Did you consume 102 pounds of sugar last year? If not, you didn't get your share. Americans in 1922 used 5,303,755 tons of sugar. That was 102 pounds for every man, woman and child.

Making allowances for infants who cannot be listed as sugar consumers, it is probable that the average grown-up used 150 to 200 pounds of sugar during the year. All of which rather dumbfounds Merriek P. Willett, writing in the American Sugar Refining Company's Market Letter.

And it is almost unbelievable that our sugar consumption exceeds 100 pounds a year for each of us.

What's the answer? Why the increase? Prohibition! Deprived of legitimate stimulants, our nation is swinging strongly to candy and soft drinks.

Probably one reason for increased sugar consumption is to be found in the cellar—home-made wines. Ten pounds of sugar doesn't last long when the little giant, fermentation, gets started in an air-tight keg.

The average American in 1922 consumed 14 pounds more of sugar than the year before.

Compared with our average of 102 pounds a year each, most other countries are far behind us in use of the stimulant, sugar.

Australians consume 100 pounds of sugar a year on the average. Denmark ranks third, with 99 pounds. Then comes Canada, 97 pounds. Next in line is Switzerland—75 pounds.

So the list tapers down, until at the tail-end among leading nations we have Chinese and Russians consuming only five pounds of sugar a year for each man, woman and child.

If you have anything to sell, rent or trade, put a wanted in the Sierra Madre News.

LOCAL NEWS

Mrs. J. T. Railsback entertained the Eastern Star ladies at her home in Sierra Madre Canyon on Wednesday, the afternoon being devoted to sewing for charity.

Friends of Miss Johanna Saenger were pained to learn that she had suffered a paralytic stroke on Wednesday. She was taken to Dr. Groth's hospital and is reported to be in serious condition.

Mrs. Hart gave a dinner of ten plates before taking her guests to the Valentine party at the club house on Friday evening. The party was entertained at the Symphony concert in Los Angeles in the afternoon.

Mrs. Hart and Miss Lee were among the guests at the bridge party at the Hill Crest Country club this week.

On Friday, Feb. 16, the Woman's Guild of the Church of the Ascension will hold an all day meeting at the parish house. The meeting will open at 10 o'clock. During the Lenten season the Guild will hold weekly meetings and work on garments to be sent in the Alaska box, will occupy the time. All interested in the Guild are urged to attend.

This evening about twenty-five members of the Congregational Christian Endeavor societies will attend a district banquet to be given in the First Presbyterian church of Pasadena.

Mrs. Harry Bourne of 119 W. Grand View Avenue gave a charming Valentine party for about 20 Pasadena and Sierra Madre young people at her home Saturday night. Delicious refreshments were served.

Mrs. William Peterson of San Pedro visited Miss Florence Bandy on Thursday.

Dr. and Mrs. Ira O. Baker of Champaign, Ill., were guests at the home of Mr. and Mrs. George S. Anderson of Mariposa avenue on Tuesday. Dr. Baker is the veteran dean of the college of engineering of the University of Illinois.

WHAT IS A CHAMBER OF COMMERCE TO A CITY?

Judging solely by the absolute interest in the Chamber of Commerce of San Fernando by some of our business men and property owners, the Sun is led to believe that they do not know what a chamber of commerce is or what it is for, hence we are giving the following from Lee H. Bierce, secretary of the Association of Commerce of Grand Rapids, Mich., with the hope that the disinterested will read and "think of this thing" and co-operate in an effort now being made to build a Master Organization in San Fernando. Mr. Bierce says, as follows:

"In every community that professes to be alive there exists a commercial organization, commonly referred to as a Chamber of Commerce. These organizations constitute the medium through which the business and professional men work for the best interests of the community in which they live. The immediate function of these organizations is to make their respective communities bigger, busier and better.

"With such an aim and motive they are entitled to the support and cooperation of every man whose business is located in that community. The Chamber of Commerce is the first organization a business man should join and the last one he should resign from, and if he can afford to belong to but one, the Chamber of Commerce is the one most entitled to his support.

"Every business man owes his community a debt, created by the fact that the community has made his business possible. The easiest, most feasible and most efficient manner in which this indebtedness can be liquidated is by joining the Chamber of Commerce and giving it some money (a membership fee) and some time.

"The success of the Chamber of Commerce depends upon the extent to which it is properly financed and the number of constructive suggestions and criticisms supplied by the membership. Money alone will not make a successful Chamber of Commerce; suggestions and criticisms alone will not accomplish the desired results.

"In every live community in the United States you find an active Chamber of Commerce; in every unprogressive city in the United States you find an inactive one. It is as impossible for a live Chamber of Commerce to exist in a dead community as it is for oil and water to mix. As the progress and prosperity of every community depend upon the ability of the commerce body to function properly, it should be the first concern of every citizen to take an active interest in the affairs of the commercial organization of his community."—San Fernando Sun.

Mr. and Mrs. P. H. Berry of St. Paris, Ohio, are spending the winter with Mrs. Laura M. Cline of 395 Sturtevant Road.

Mrs. Laura M. Cline of 395 Sturtevant road, had as luncheon guests Tuesday, Mrs. J. W. Kizer and Mrs. B. F. Baker of New York City, who are spending the winter at the Huntington Hotel, Pasadena.

Earl K. Stinchcomb has removed to Pasadena, where he has taken an apartment on South Madison avenue, and will reside with his mother.

The Chamber of Commerce continues to grow. Recent additions to the membership roll are Mrs. Anna B. Brandt, 463 Mariposa Ave., and Dr. Clarence N. Barker, 30 S. Mountain Trail Ave.

Dr. George A. Madden, chiropractor, has arranged to give treatments at his residence, 200 Woodland Drive, Sierra Madre Canyon, or he may be reached there by appointment. Dr. Madden now has his office in Los Angeles but has a number of Sierra Madre clients who will doubtless prefer appointments at home.

J. F. Sadler now has one of the most attractive display windows in town. With the installation of a panel background painted in ivory white, his dry goods displays are made vastly more inviting. With the modern fixtures installed recently by the Sierra Madre Electric Company, the store illumination is made just about perfect, both inside and in the windows.

Mr. and Mrs. Schepmoes of New York arrived in Sierra Madre Wednesday night and will spend the remainder of the winter at the home of Mr. and Mrs. George P. Rikeman, 29 W. Live Oak, with whom they visited last winter.

Karl Hart and Bruce McGill attended the party given by the Seniors at Marlborough school in Los Angeles Saturday evening.

INDIAN'S IDEA OF DESTINY OF OKLAHOMA EDITOR

An Oklahoma editor tells of an old Indian who came to his office to pay for his paper. The editor took the money, then the Indian wanted a receipt. The editor tried to talk him out of it. Mr. Indian insisted on getting the receipt. After making it, the editor wanted to know why he was so persistent about wanting a receipt. The Indian said: "Me die sometime. Go to big gate and St. Peter ask if I been good Indian. I say yes. He say did you pay your debts? I say yes. He say, did you pay editor for his paper? I say yes. He say where is receipt? I no have it. I have to run all over h— to find you and get receipt." —Middletown, Idaho, Herald.

SCOUT MOVEMENT CREATES FATHER-SON COMRADESHIP

The story of a father who joined the ranks of the Boy Scouts as a tenderfoot and worked up to the top with his son, is illustrative of the comradeship that Scouting is promoting between scouts and their "dads."

Hundreds of men are volunteering for scoutmaster service to be closer to their boys, as a means of Scouting's wholesome scheme of organized work and play.

Father and son banquets, hikes and get-togethers are held in practically every community. An increasing number of fathers are spending week-ends in out-of-doors relaxation with their sons at the various scout camps.

Scriptural Comfort.
A dear old lady recently declared that if it wasn't for a certain passage of Scripture she'd never have been able to endure her trials and tribulations. She didn't quite know where in the Bible the passage was located, but what it said was, "Grin and bear it."—Boston Transcript.

Stage Tragedian's Joke.
They used to say of the late Louis James that he was one of the greatest humorists and practical jokers in stage history. It is recounted of him that on a certain occasion, in one of the Shakespearean tragedies, having to shake hands with a brother tragedian, he left clutched inescapably in the latter's fist a fat, raw oyster, which the unfortunate individual was obliged to keep by him through the remainder of the scene.

Have Wrong Viewpoint.
Men of the world hold that it is impossible to do a benevolent action, except from an interested motive; for the sake of admiration if for no grosser and more tangible gain. Doubtless they are also convinced, that, when the sun is showering light from the sky, he is only standing there to be stared at.—Anon.

Nearly 100 Died in Explosion In Heart of This Mine

THE entrance is shown here to the Woodward Iron Company's Dolomite mine No. 3, near Birmingham, Ala., in which 100 men were killed by an explosion, the climax to a series of mining disasters in the country recently. Several men were washed down this shaft, striking an electric spark.
